PHISHING SIMULATIONS

Work with our Training Coordinator who can deploy a simulated phishing campaign on your employees. We will send phishing emails to your employees to help identify those susceptible to phishing attacks. Results are delivered to you and our Training Coordinator can help implement online training courses to educate the susceptible employees.

ONLINE TRAINING

Human error is the biggest risk to cybersecurity. Training and educating employees are paramount to ensure security of business systems. Through 15 online training modules covering breaches, phishing, ransomware, data security, safeguarding information, and more, you've taken a step towards cyber protection.

TRAINING COORDINATOR

Finding the time to implement cybersecurity training across your organization can be a challenge. The Training Coordinator can do it for you! The Training Coordinator will send training instructions, track course assignments and deliver a completion report for compliance and regulatory purposes.

UNLIMITED ADVICE

Contact us to review your cybersecurity posture, compliance issues, or technical questions. Our team of privacy attorneys and technical experts will help you address any question you have -- no question is too big or small.

SECURITYVUE CYBER SCAN

Use this report to identify areas of cybersecurity risk based on multiple vulnerability scans of your public facing systems and applications. The report also includes results from over 100 malware and blacklist database lookups. To get a report, reach out to our experts who can run the scan of your public facing systems and applications and provide you with guidance to address the identified risks.

KNOWLEDGE CENTER

Save time with self-service, 24/7, online access to sample data security policies, procedures, and agreements, incident response planning materials, risk assessment tools, vendor management resources, step-by-step compliance guidance, and more.

NEWS AND ALERTS

Stay up to date with the latest risks and solutions with our monthly newsletter, poster reminders, training emails, and cyber alerts when needed.
