Defense-In-  
Depth

*The most comprehensive cybersecurity services available*

### **SecurityVue – Finding Security Gaps Before They Do**

SecurityVue scans your internet-facing assets, just like cyber criminals do when planning an attack. We find the problems and tell you how to fix them . . . before the cyber-attack.

### **AI Resources for Practical, Secure Adoption**

Designed to help organizations adopt AI confidently, responsibly, and securely. From strategy to real-world risk awareness, these tools provide clear guidance, actionable insights, and employee education.

### **MFA Reality Check and Advisor Hotline**

Rapid assessment of your MFA controls, enforcement gaps, bypass paths, and configuration weaknesses. Expert MFA advisors are available by email and phone.

Every organization is a target. How fast can your organization defend? Build protection that keeps threats out and your business moving.

### **Unlimited Expert Advice**

Our technical experts and privacy attorneys assist with any cybersecurity question.

### **Employee Training**

Employees are often the gateway to a successful cyberattack. Train them with over 4 hours of online courses in 15 different training programs.

### **Phishing Simulations**

Deploy a phishing campaign to help employees identify phishing emails. Results are delivered with advice to implement online training courses to educate the susceptible employees.

### **News and Threat Alerts**

Stay up to date with the monthly newsletter, cyber byte reminders, training emails, and cyber threat alerts.

### **Knowledge Center**

24/7 online access to hundreds of cybersecurity guidance documents, sample policies/procedures, agreements, incident response planning materials, risk assessment tools, vendor management resources, and more.

### **Get Access in a Minute**

Visit [datasafe.britinsurance.com](https://datasafe.britinsurance.com), click "Register" at the top right, and follow the steps. Use your policy number (no dashes, no spaces) as your "sign-up code."
